**MORE DETAILED SUMMARY FOR PURCHASE HEREWITH**

Products in the store online include **VLP buttons** (View \* Listen \* Purchase) that when selected load Product Information pages with details about the products and 'add to cart' buttons.

All products have buttons to add the products to the cart.

Some products can be downloaded complimentary directly from the site pages where 'free'/'complimentary' is noted and allowable.

All other products must be added to the cart in order to be downloaded after the purchase at the checkout and the confirmation screen loads with product specific URLs for access to the products; these can also be accessed via the emailed receipt.

NO copying, recording or capturing products directly from or of the website.

**Select a product (products)**

Select '**Add to cart**' (individual & bundles). The '**Add to Cart**' button text changes to '**IN CART**' (the product has been added to the cart at the checkout page), select this button again to load the cart if desired.

**'Add to Cart & Load' buttons load the Checkout** screen having placed the item/s in the cart. (Close checkout screens until the final product has been added to the cart, keep at least 1 page of the website loaded, especially if in 'private browsing mode', so that the memory of the items added to the cart is retained with all added products visible at the final checkout for purchase completion.) Ensure that the products and quantity are as intended at the final checkout page..

**Fill out the checkout form.**

Input & apply discount codes/deals where applicable, one at a time; the cart total fee updates. If the cart total does not reflect adjustments select the '**UPDATE CHECKOUT**' button. Input email address & name. (\*N.B. If the cart is edited this information will be reset to blank)

**Select Complete Purchase/Complete Complimentary Purchase button.**

(If payment is required follow through with the **PayPal/Pay as a Guest process**)

**A purchase confirmation screen loads next with link/s access to the files**

(purchased or complimentary) to be downloaded to your devices (PC, TABLET, PHONE ETC).

On devices with Apps, the products can be downloaded to your files/downloads folder app and other apps or to pc, transferred to devices and vice versa.

From the confirmation screen, select the repeated product file title which is linked to the file/s to download/save the product to your device. Set browsers to save rather than open files. Phones may require pressing into the file title to access 'download to device' rather than open the file.

The **emailed purchase receipt provides the same access method to the files** as long as your **Internet browser App is Internet data enabled** for accessing the specific URL Internet Addresses on the Musical Rise site for the products.

**THE SPECIFIC TO PURCHASE PRODUCT URL LINKS  
ARE ACCESSIBLE FOR UP TO 168 HOURS, 1 WEEK.**

**NO SHARING PRODUCTS DIRECTLY VIA THE NET OR UPLOADING TO THE NET.**
